The CompTIA® Network+® certification is an internationally recognized validation of the technical knowledge required of foundation-level IT network practitioners. The CompTIA Network+ certification ensures that the successful candidate has the important knowledge and skills necessary to manage, maintain, troubleshoot, install, operate and configure basic network infrastructure, describe networking technologies, basic design principles, and adhere to wiring standards and use testing tools.

CompTIA Network+ professionals are trained to work with a variety of hardware, software and networks. Take your talents wherever your IT ambitions lead you. CompTIA Network+ is compliant with ISO 17025 US Department of Defense Directive 8570.01- M and US Department of Defense Directive 8140 requirements.

Network+ ensures an IT professional has the knowledge and skills to:

- Design and implement functional networks
- Configure, manage, and maintain essential network devices
- Use devices such as switches and routers to segment network traffic and create resilient networks
- Identify benefits and drawbacks of existing network configurations
- Implement network security, standards, and protocols
- Troubleshoot network problems
- Support the creation of virtualized networks

WHO SHOULD ATTEND?

- Network technicians
- Junior network administrators and engineers
- Network analysts
- IT support professionals
- Anyone looking to build their networking skills

Learning Objectives

- **Networking concepts**
- **Network security**
- **Infrastructure**
- **Network troubleshooting and tools**
- **Network operations**

EXCELLENCE
THROUGH
EDUCATION

Intellectual
POINT

Course Schedule

SESSION 1:

- Network models cabling & topology

SESSION 3:

- TCP/IP basics, applications & security

SESSION 5:

- Remote connectivity & wireless

SESSION 7:

- Building a real network & risk management

SESSION 2:

- Ethernet basics & modern internet

SESSION 4:

- Network naming & advanced networking

SESSION 6:

- Virtualization & cloud computing

SESSION 8:

- Network monitoring & troubleshooting

COURSE FEATURES

- Live instructor-led training in modern classrooms
- Thorough review of all Network+ topics by industry experts
- Hands-on labs on real Cisco Gear (ISR Routers, Switches, Hubs, Cables, Connectors)
- 24 x 7 access to the real labs in classrooms and remotely
- 100% latest material & realistic practice questions
- Confidence building hands-on training
- Classroom located in Reston & conveniently accessible from Silver Line Metro
- Authorized Pearson VUE testing at same location to help you complete your exam*
- Study material, notes, videos and practice questions included in course price
