

# Training Program

This class is intended for candidates with non-technical backgrounds, such as those involved in selling or purchasing cloud-based solutions and services or who have some involvement with cloud-based solutions and services, as well as those with a technical background who have a need to validate their foundational level knowledge around cloud services. The class will cover:

- Learn cloud concepts such as High Availability, Scalability, Elasticity, Agility, Fault Tolerance, and Disaster Recovery
- Understand the benefits of cloud computing in Azure and how it can save you time and money
- Compare and contrast basic strategies for transitioning to the Azure cloud
- Explore the breadth of services available in Azure including compute, network, storage and security

## EXAM

This exam measures your ability to understand the following concepts:

- Cloud concepts
- Core Azure services
- Security, privacy, compliance, and trust
- Azure pricing and support

## PREREQUISITES

This is a NON-TECHNICAL course. It focuses on terminology and concepts, per the AZ-900 exam.

Technical IT experience is not required however some general IT knowledge or experience would be beneficial.

## Microsoft Azure Fundamentals AZ-900

Microsoft Azure is the cloud for modern business. This certification helps you to understand cloud concepts, core Azure Services, Azure pricing and support, and the fundamentals of cloud security, privacy, compliance, and trust.
